Do you have a pet? Pets have a lot in common with people.

Pets have their homes.
A dog lives in a doghouse.

A bird lives in a cage.

A goldfish lives in a fish bowl.

Pets have feelings.

A happy dog wags its tail like this.

But if it is scared, it barks. "Bow wow!"

A happy cat rubs and starts to purr.

But if it is angry, it raises its fur. "Meow!"

Pets need care to stay healthy.

If pets are sick, we should take them to the vet.

Pets also need food, water and exercise.

And all pets need love. Love your pets!
